DANIELS OFP B.V.

SPECIFICATION ORGANIC SHALLOTS (2017-1)

Supply of Organic Produce

In order to comply with the controls of the UK Organic Guidelines, the following must be adhered to:

Before supply of organic produce can begin, Daniels OFP B.V. must be in possession of a copy of certification to prove that the produce is wholly organic and has been certified as such by a recognised organic governing body in the country of origin.

In relation to organic onions imported from outside the European Community a copy of the 'European Community Certificate of Inspection for Importation of Products from Organic Production' for each consignment delivered must be faxed or emailed to Daniels OFP B.V.

With each delivery, reference must be made on all labelling to show the supplier, grower, field and country where grown, organic certification body and reference number, quantity, class and size.

The delivery paper work/CMR of each consignment must clearly state 'Organic shallots'.

Daniels OFP BV acts as a representative and does not conclude agreements in its own name. The General Terms and Conditions of Daniels OFP BV apply to all agreements entered into and offers made through the intermediation of Daniels OFP BV. These General Terms and Conditions have been filed with the Chamber of Commerce in Breda under number 50243381 and can be examined on our website at www.danielsofp.eu These General Terms and Conditions will be sent free of charge upon request.

APPEARANCE

- * Shallots must be fresh, firm, clean from soil and dirt, dry and with a minimum of two layers of skin.
- * Skins must be firmly attached.
- * Necks and roots must be neatly trimmed.
- * Colour should be typical of variety.
- * Shape should be typical of variety ranging from round to elongated.

GRADING

- * Sizing must be in accordance with Daniels OFP B.V.'s requirements at the time of purchase.

PACKAGING AND TRANSPORT

Shallots must normally be delivered in wooden / bins or Big bags. Any other form of packaging must be *agreed with Daniels OFP B.V. in advance of delivery .Agreement to these other forms of packaging will be agreed in writing by Daniels OFP B.V.

* All deliveries must be pre-arranged with Daniels OFP B.V.

* All vehicles transporting the onions must be weather resistant and suitable for the purpose of transportation of fresh produce .

Vehicles should be well maintained and in hygienic condition. In case of loading loose product the trailer *must be cleaned before charging and a cleaning certificate must be handed over to the client before departure. If there is any possibility of taint or cross contamination from the interior of the vehicle or any other product which is or has been transported within the vehicle the onions will be rejected .

* Packaging used to contain the onions must be of sound construction and must be clean and free from any foreign body matter or extraneous vegetable matter .

Daniels OFP BV acts as a representative and does not conclude agreements in its own name. The General Terms and Conditions of Daniels OFP BV apply to all agreements entered into and offers made through the intermediation of Daniels OFP BV. These General Terms and Conditions have been filed with the Chamber of Commerce in Breda under number 50243381 and can be examined on our website at www.danielsofp.eu These General Terms and Conditions will be sent free of charge upon request.

LABELLING

Product should be labelled with:

- *Grower's name or identification number
- *Field Reference
- *Variety
- *Size grading (in millimetres)
- *Onion bins imported from outside of the EU must also bear 'Class II' on each bin / bag.
- *Date of grading/packing

Any product that does not display these criteria will be rejected.

MAJOR DEFECTS

- *Overall external defects must not exceed fifteen percent by bulb count.
- *The product should be free from internal defects

DEFECTS

- *Total external major defects must not exceed two percent by bulb count.
- *Total external minor defects must not exceed fifteen percent by bulb count .
- *Total major internal defects must not exceed two percent by bulb count.
- *Total minor internal defects must not exceed ten percent by bulb count.

EXTERNAL DEFECTS

Major defects

<2% by count

- *External rots
- *Weeping shallot necks
- *Mould growth covering greater than 50% of the bulb area

Minor defects

<15% by count

- *Heavy staining covering over 50% of the bulb
- *Skinning showing over 50% of the underlying flesh
- *Skin cracking greater than 2mm wide covering over 50% of the bulb area
- *Exposed double bulbs
- *Mechanical damage and pimple damage
- *Long shallot tops greater than 50% of the depth of the bulb
- *Long shallot roots greater than 50% of the depth of the bulb
- *Pest damage
- *Visibly leathery skin
- *White roots clearly visible
- *Mould growth covering less than than 50% of the bulb area

INTERNAL DEFECTS

Major defects <2% by count

- *Internal rot
- *Hollow Necks - bolting onions which show a progressive woody stem

Minor defects <10% by count

- *Internal growth - green growth within the onion greater than 50% of the depth of the bulb.
- *Bruising\glassiness\translucency (which penetrates beyond the second layer of flesh) due to bruising.

NIL TOLERANCE

All onion deliveries must be free from :

- *Live pests
- *Soil, clods and extraneous vegetative matter
- *Foreign bodies
- *Chemical deposits

SIZE RANGE

- *Size: If size graded by supplier - no more than 5% by count of the product is to be above or below the size specified on delivery paperwork and/or bin / bag labels. Measurement of size will be carried out using square sizing rings.

CONDITIONS OF SUPPLY REGARDING TO SPECIFIC PESTICIDE APPLICATIONS

A proposed list of chemicals will be required at the beginning of the growing season to allow Daniels OFP B.V. to check which chemicals are intended to be used on the organic crop. This information must be submitted before applications of pesticides are made.

The records will then be verified against the Actual Pesticide Information, which is submitted at the end of the season after harvest of the crop.

² All product must display field name/ reference numbers on the packaging which allows cross referencing to field pesticide records.

All pesticide information must precede delivery of the product . Product that is received with no crop pesticide application information will not be off loaded until the crop pesticide records are received, checked and approved .Alternatively Daniels OFP B.V. reserves the right to rejected the delivery.

Daniels OFP BV acts as a representative and does not conclude agreements in its own name. The General Terms and Conditions of Daniels OFP BV apply to all agreements entered into and offers made through the intermediation of Daniels OFP BV. These General Terms and Conditions have been filed with the Chamber of Commerce in Breda under number 50243381 and can be examined on our website at www.danielsofp.eu These General Terms and Conditions will be sent free of charge upon request.
